CAUTION : ALL FILES HAVE CHANGED since the last distribution.
```

This material was designed to help (La)TeX users to print French documents i.e. according to French typographic habits. Here are the source files for producing the documentation.

The FrenchPro distribution, as provided by his author is composed of other directories. The "doc" directory hosts the following files :
(The number of bytes of this README may differ)

%%<=====
```

Quick description of contents:

```
README_doc.pdf: this file.
DROIT.pdf      : article on Internet legal matters
artET98.pdf    : article published for EuroTeX'98 in St Malo, France.
fenglish_doc.pdf: the documented file of fenglish.sty
frdoc.tex      : the basic French documentation source file used to compose:
french_doc.pdf: the code of FrenchPro with its comments and the Copyright
frenchlu.tex   : the LaTeX users manual and installation manual for
                  the FrenchPro package (source file).
frguide.tex    : just the user's guide (source file).
frguide.pdf    : printable FrenchPro users's guide.
frenchle.pdf   : printable frenchle users's guide
frenchpro.pdf  : the printable FrenchPro doc is ALIRE.pdf.
msg.pdf        : printable documentation about the "msg" package.
mymaj.sty      : a style to print change bars (used in previous files)
myfroptn.sty   : a sample of personal style file with FrenchPro options
```

other *.pdf files are source files provided in a pdf printable format.

Your optional "TO DO" list: (the documentation is already provided in the
===== master directory: ALIRE.pdf)

- 1- (I hope you have already generated kb7to8 and kb8to7)
Convert the file frdoc.tex and frenchlu.tex to 8-bit.
- 2- Then the commands: [frpdf]latex frenchlu
makeindex -s fridx1.ist frenchlu
[frpdf]latex frenchlu
would normally provide a readable complete French documentation,
i mean a [.pdf/]dvi file that could be previewed or printed via the
appropriate driver. This should normally provide the same
viewed file as ALIRE.pdf in the root directory.
- 3- Move frguide.pdf adn frldoc.pdf to the documentation directory
where you want the user find it.

Hope you enjoy it,

Bernard GAULLE
